DETAILED ACTION

Allowable Subject Matter

1. Claims 14-17,19-21 are allowed.

The primary reason for the allowance of claims 14-17,19-21 is the inclusion of the limitation of "wherein the first guide elements are fastened to the base support by means of a connection in which a first guide element has a first half bore with a first collar, wherein the base support has a second half bore, with a second collar corresponding to the first half bore, wherein the two half bores complement one another to form a complete bore in a joined-together state, wherein a fastening arrangement extends through the complete bore, the arrangement comprising a first fastening element with a socket which corresponds in form to the collars and which at least partially encloses the collars; and wherein the first guide element is thereby fastened to the base support in a positive manner". It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.
